

CosyFloor®

Compact Electric Press Tool 18V

The Cosy floor compact press tool is high-pressure hydraulic system powered by Li-ion battery, actuated by AC motor with a 25KN output.

With an OLED display indicating pressing times, battery level & tool temperature, this compact easy to handle press tool can be used for connecting stainless steel pipe, MLCP & PEX pipe using suitable press fittings.

With interchangeable Jaws available, the compact press tool can be used for:

16mm – 32mm MLCP & PEX pipe

15mm – 28mm Copper & Stainless-Steel Pipe

The Compact Press Tool comes in a hard case with 2 x 18v 2.5Ah batteries & fast charger. *Jaws sold separately.

With a 330° rotating head & compact design for easy use with one hand, this press tool can be used in those hard to reach or confined spaces.

Key Features:

Compact design for one handed use

330° rotating head for hard to reach or confined places

2 x 18V 2.5AH lithium-ion batteries
